

14 - COMPANY INSURANCE – Upgrading an Insurance policy

Insurance advisor: Good Morning M.WILLIAMS, Kathrin MILLS at WeCare.Inc. I am following up with your yesterday's on-line **information request** for insuring your business activity and person.

Policy holder: Hi Kathrin, thank you for calling back so fast ...Well, yes I am **an independent worker** and have been running an audit and training company for the last eight years. I mostly operate at clients' premises and use my car for trips. As business is increasing, all kinds of possible risks can **arise**. I have to **reconsider** and upgrade my **insurance scheme**

Insurance advisor: Ok then, what would you like an **insurance policy** for?

Policy holder: Well, first work wise I would need **to cover** my work training tools, and car for an amount of 25 000, 00 € approx. I should also think of a cover in case I might fail to provide my **contractual services**, and for preventing possible clients' **insolvency**. Would you have any insurance package that **encompasses** all these?

Insurance advisor: We sure do M.WILLIAMS, the "Full confidence Pro+Pack (FCP+)" is what you need: It **encloses** a "Professional **property insurance**" policy **to cover for** your work equipment against theft, **malfunctions**, natural disasters, and value loss. Besides, a "**car and motor insurance** policy" is proposed, provided you mostly use it for work purpose at least in 70 % of your **journeys**, transporting work material with you

Policy holder: That's fully the case. And what about coverage against **contractual failure** of mine or clients'

Insurance advisor: I was getting there actually, the third **flap** of the FCP+ Pack, a "Professional **liability insurance**" policy that also includes a **performance cover** scheme, and **not the least**, a **legal expenses cover**. So should you **fail** to your **agreements**, face insolvent clients, or have **to take legal action**, you are covered

Policy holder: That sounds all fine, would you please
