fishing
a barn
straw
a field
the yield
cattle
sustainable
to reap
to pick

And how a bit of conversation

- Man: Have you ever tried to grow your own tomatoes? It's easy and its fun.
- Woman: Are you scared for GM foods?
- Man: How long did your father work on a farm?
- Woman: I'd like a dozen free range eggs, please.
- Man: I think battery farming should be outlawed.
- Woman: You don't need a fishing license to fish in a pond when I'm a professional fisherman.
- Man: These farmers use traditional methods. They use ban all pesticides on their farms.
