

## ONE LEVEL 1

### WHO IS IT ?

- Sarah: Do you know any actor who plays in Sparta? I can't remember his name.
- Wentworth: Are you talking about the main actor? The one with really short hair?
- Sarah: I'm not. He plays a bad character in it...
- Wentworth: Do you know any other movie he stars in?
- Sarah: I know one. It is a romantic movie but he usually plays in action movies.
- Wentworth: Can you make a physical description of it?
- Sarah: He's blond, blue-eyed, in his late 20's, I suppose.
- Wentworth: Can't you give me the title of one of his movies?
- Sarah: I've got one, King Lear!
- Wentworth: Now I see! He looks like the other actor who looks as if he is 25 but in fact he is 40.
- Sarah: That one! That's him! He dyed his hair black in his latest movie. It really looks like a good one, this time. I can't wait to see it!

Grammar:

We use ONE in different cases in English. We use ONE for:

a) a unique quantity:

Example: I have one brother

b) a noun:

One can replace a noun (introduced by a, any in general).

Is there a problem? There's one.

ONE is a countable so you can use ONES for plural.

Example: I love my cousins in Berlin but I also have ones in Paris.

d) General facts

One in formal English is used for general facts or infinitive form. It is an equivalent to 'we' or 'you'

Example: One should make one's own decision
