And now a bit of conversation

Man:	The selective sorting of household waste makes recycling efficient.
Woman:	I don't think you should use pesticides in your garden. Are you aware they upset the natural balance of the soil?
Man:	Is much effort made to promote carpooling?
Woman:	Climate change is becoming a reality. We'll have more flooding and droughts.
Man:	Some people think that windmills are an eyesore.
Woman:	Natural resources are running out. That why we need renewable energy.
Man:	We've switched to organic farming and banned artificial fertilizers, pesticides and nitrates.
Woman:	Do you think punishing dumping at sea and gassing would be a solution?
Man:	Our firm has invested a lot of money in alternative energy.
Woman:	I'm studying the effects of acid rain on soil erosion, biodiversity and ground water Use only recyclable components.
